

BELGIUM

The Kingdom of Belgium is a small, highly developed and urbanized country in Western Europe bordered by the Netherlands, Germany, Luxembourg, France and the North Sea. The nation known for beer, chocolate and castles features Dutch, French and German as official languages.

One of Europe's first countries to undergo the Industrial Revolution, Belgium's economy today is highly modernized, service-oriented and closely connected to the world. The country is a major importer and exporter of heavy machinery and foodstuffs. The city of Antwerp is considered the world's diamond capital, since the country is the world's leading importer of raw diamonds, exporting the finished jewels to countries around the globe. Belgium is by far the world's leading manufacturer of billiard balls.

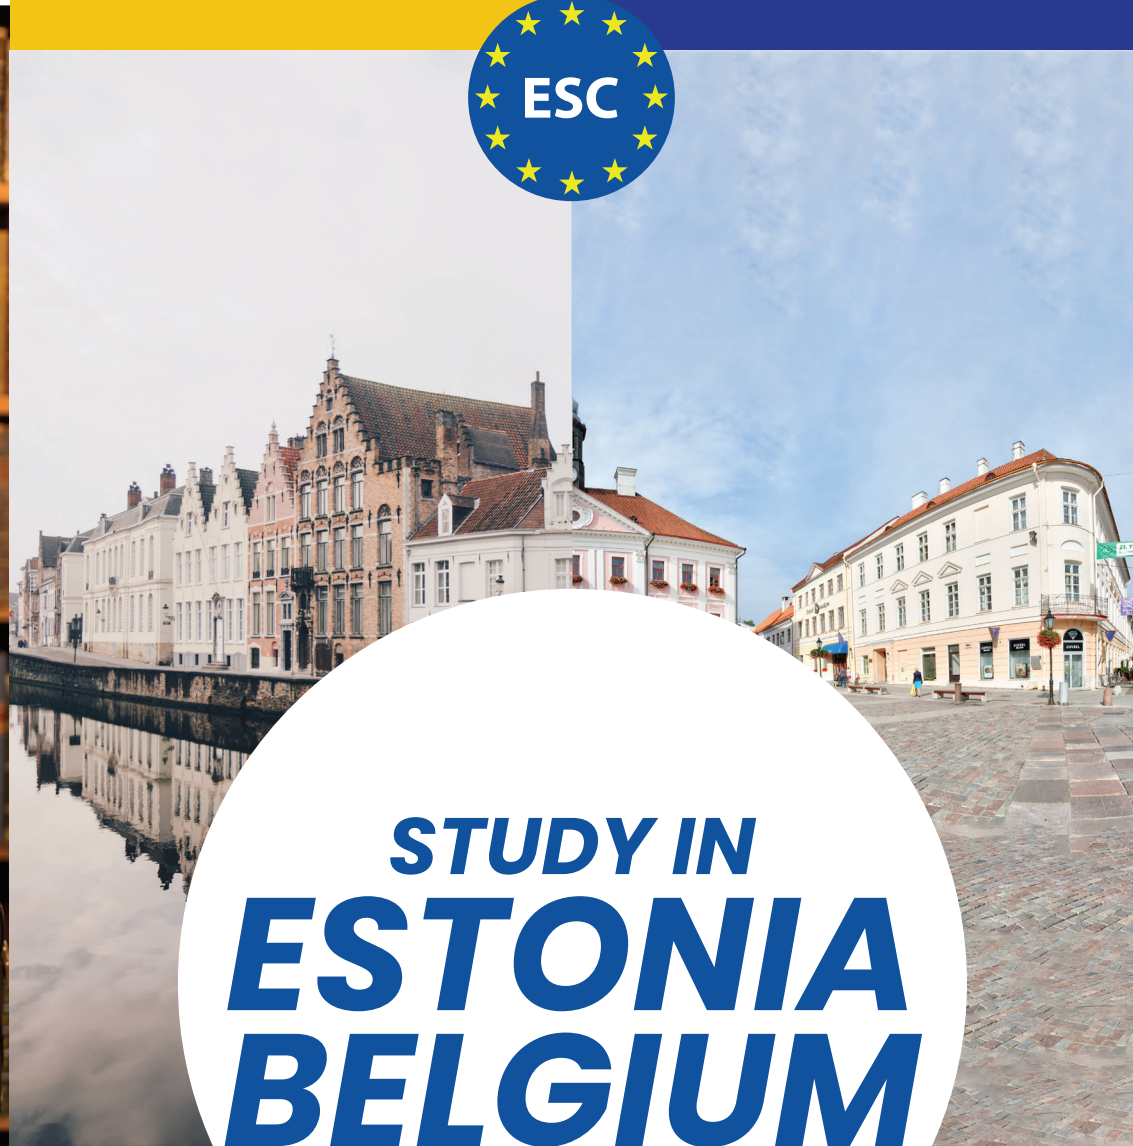

Belgium is considered a high-income country, and reports a comparatively high quality of life for its citizens, as well as high levels of health care

ESTONIA

Estonia is a small country in Northern Europe bordered by giant Russia to the east, Latvia to the south, the Baltic Sea to the west and the Gulf of Finland to the north. The country's territory includes a mainland and more than 2,000 islands.

The Estonian language is related to Finnish, and the nation's culture is a mixture of Western and Eastern influences. The World Bank designates Estonia as an advanced, high-income free market economy noted for balanced government budgets, a flat income tax, low tariffs and low public debt. Agriculture and industry have long been major sectors, but the country's economy has steered increasingly toward commerce and service industries.

Estonia is noted for its digitized society and being one of the most-wired countries in Europe, marked by features such as its e-residency program.

HIGHLIGHTS

- Over 100 unique and high quality degree programmes taught fully in English
- Internationally accepted diplomas
- Various state scholarships and funding possibilities for incoming students
- English language widely spoken
- High level research projects
- Active and fun student life
- Working possibilities during studies and possibility to stay in the country for 9 months to look for a job after graduation
- The personal touch: small group sizes in classrooms
- Great value for money and affordable living
