STUDY IN  
**PORTUGAL**

Info@europestudycentre.com | +919072575127

**Portugal** is a southern European country on the Iberian Peninsula, bordering Spain. Its location on the Atlantic Ocean has influenced many aspects of its culture: salt cod and grilled sardines are national dishes and the Algarve's beaches are a major destination. Portugal offers world-class education. The University of Lisbon has a range of studies and locations for any student's needs. The Universidade Nova de Lisboa has a focus on the humanities and social sciences. At the University of Minho, you can opt for any number of specialty areas including education, economics, arts and sciences, architecture, and engineering.

## Why study in Portugal

Choosing to study in Portugal has several advantages

**Tuition:** International students choosing to study in Portugal will be impressed by the low cost of tuition and the equally affordable cost of living.

**ECTS:** International students who wish to gain life and experience in several places instead of just one have this opportunity when they study in Portugal.

**Discounts:** Students who study in Portugal will have access to significant discounts to the metro, to museums and even to historical locations. This is a great way to improve the quality of your education in Portugal.

**Courses:** There are a large amount of courses and entire degree programs available in English, and this is a great reason to choose Portugal for studies

**Quality:** The educational history in Portugal dates back to 1290AD, when the ninth oldest university in the world was established and the standard of education was cultivated.

**Variety:** There are two types of education offered—University and lytechnic. Within these large institutions there are smaller subcategories of study that make studying in Portugal ideal.
