STUDY IN
UK

The United Kingdom is the biggest island in the continent of Europe. It consists of four countries: England, Scotland, Wales and Northern Ireland and many islands around the world. The country is surrounded by water, having only one land border with Ireland.

The United Kingdom is one of the greatest countries in the world, playing a major and a central role in global politics and economy.

British universities are some of the best universities in the world. The UK is ranked 2nd highest in terms of foreign students in the world.

The standard of teaching and research at UK universities and colleges is routinely assessed and graded by official organisations to ensure that set benchmarks are met. The superior quality of education is what has promoted countries around the world to adopt the British schooling system with minor changes.

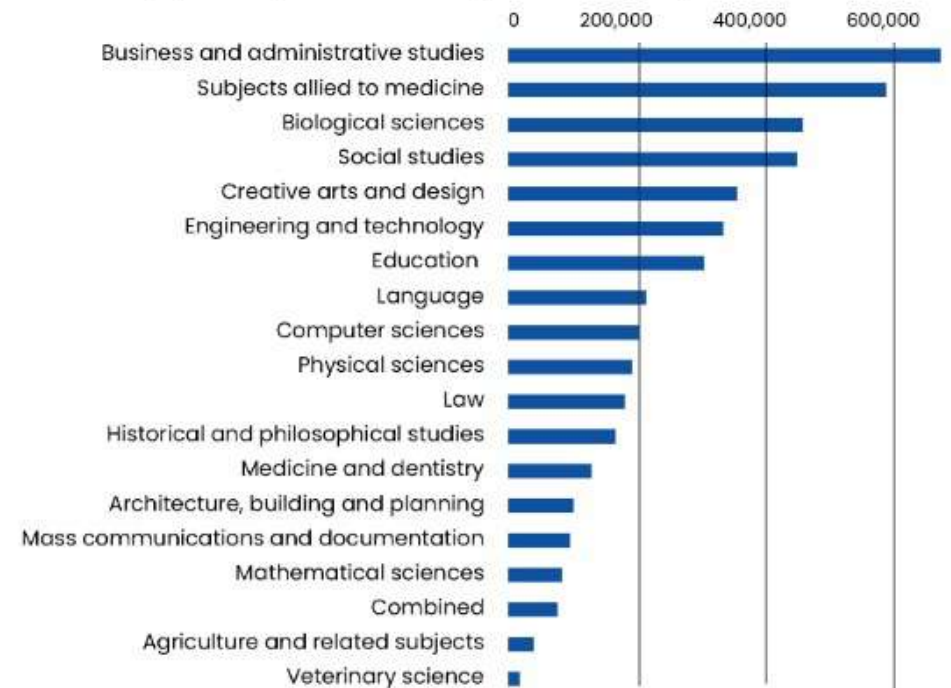

Most international students are from Asia

Asia continues to send the greatest number of nationals to study in UK universities, accounting for 44 percent of the international undergraduate student cohort in the country.

Business is a popular subject for both undergraduates and postgraduates

Business is a popular subject for both undergraduate and postgraduate
